

Directions:

New Plantings: GREEN CHICKEN Natural Organic ROSE FOOD will not burn tender new roots. Mix GREEN CHICKEN into the soil used to fill the planting hole. Dig the plants in, cover with soil mixture and water thoroughly.

Established Rose Beds: Sprinkle GREEN CHICKEN to the soil surrounding the plant in the root absorption area which is inside the leaf-drip zone. Lightly mix into the top layer of soil. Water thoroughly. Repeat applications are suggested every 4-5 weeks.

Rose plant or bush size	GREEN CHICKEN Rose Food
15 cm (6 in)	1 Scoop
30 cm (12 in)	2 Scoops
60 cm (24 in)	4 Scoops
1 meter (39 in) and more	5 Scoops
